To whom it may concern,

**Statement of REACH & RoHS Compliance**

Sontay Ltd. is cognisant of the requirements of REACH, the EU Regulation on the Registration, Evaluation and Authorisation of Chemicals, as implemented into UK law by REACH Enforcement Regulations 2008 (SI 2008/2852).

The basic aim of REACH is to improve the protection of human health and environment through the better and earlier identification of the intrinsic properties of chemical substances.

Sontay Ltd. is classed as a downstream user under the REACH definitions and are therefore not required to pre-register or register its products.

Sontay Ltd.'s products are classed as "articles" as defined in REACH Article 3(3), and do not release substances under their normal use. Under REACH, registration of substances which are used in the manufacturing of articles do not apply to Sontay Ltd.'s operations.

Suppliers of articles must provide recipients with information on Substances of Very High Concern (SVHC) if those are present above a concentration limit of 0.1% w/w on an article level. Sontay Ltd. products do not currently contain any SVHC's currently listed at;

[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

Therefore, it is considered that Sontay Ltd. meet all applicable REACH requirements.

We can also confirm that our products meet the requirements of the RoHS Regulations 2011. (The restriction of the use of certain hazardous substances in Electrical and Electronic equipment regulations 2011) and do not contain more than the agreed levels of any of the restricted substances.

Sontay Ltd. continues to liaise with its suppliers to ensure that all SVHC's are notified to the European Chemicals Agency, if necessary, to comply with the REACH requirement.

Kind regards,

**Martin Schreiber**  
*Product Manager*
