

Features & Benefits

- Auto fan speed with auto-off function (-HC only)
- Calendar/time programmable (-P only)
- Sleeping mode (-HC only)
- Adjustable Switching Differential (deadband; -P only)
- On/off memory function
- Anti-frost protection mode
- Lock-function
- Sleep mode
- Modbus RS-485 communication

Models

-HC

Hotels & offices

- Heating & cooling
- 3-Speed fan control
- White touch screen
-

-P

Smart homes

- Programmable
- Suitable for electrical/underfloor heating and hot water boilers
- External sensor option
- Blue touch screen

Technical Overview

The ST-TOUCH range of touch screen thermostats, offers intuitive ambient temperature control with a modern design to maximize energy efficiency.

Whether flush or surface mounted its slim cell-phone like design and full touch screen operation definitely has its finger on the pulse of the time.

Product Codes

ST-TOUCH-HC Heating/cooling Touch Screen Thermostat

ST-TOUCH-P Programmable Touch Screen Thermostat

Accessories

ST-TOUCH-555 External temperature sensor for -P version only

ST-TOUCH-BOX Optional back box

Specification

Operation:	-HC	Heating/cooling
	-P	Programmable
Set point range:	-HC	10-30°C / 1°C per step
	-P	5-35°C / 0.5°C per step
Accuracy		±1°C
Output contacts:	-HC	Heating/cooling 3A resistive
		Fan speed 5A resistive
	-P	Heating 20A resistive
Supply:	-HC	220Vac ±10% 50/60Hz
	-P	85 to 240Vac 50/60Hz <2W
Wiring:	-HC	≤ 1.5mm ²
	-P	≤ 2.5mm ²
Dimensions		110 x 86 x 13mm (when flush mounted)
Ambient:	Temperature	0 to 50°C
	RH	<90% non-condensing
Protection		IP30
Country of origin		China

WEEE Directive:

At the end of the products useful life please dispose as per the local regulations. Do not dispose of with normal household waste. Do not burn.

The products referred to in this data sheet meet the requirements of EU Directive 2014/30/EU & 2014/35/EU

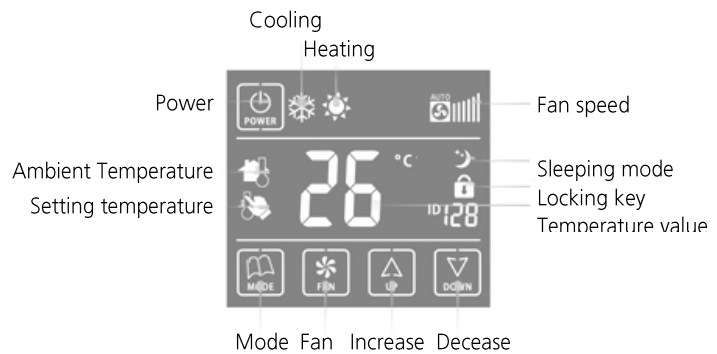

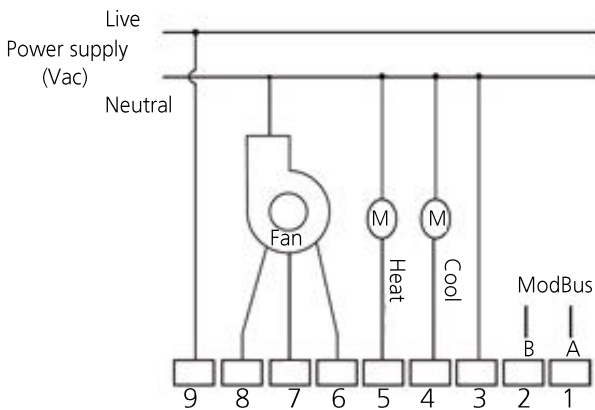

Main Features

- Auto Fan Speed with Auto Off Function: Controls the speed of the fan automatically according to the current requirement for ventilation. When set temperature is reached, the fan turns off automatically (-HC).
- Programmable: Enjoy a warm home and bring your heating system in line with your individual occupancy habits, for smarter living and maximum energy efficiency. (-P)
- Sleeping Mode: Steadily increases (when cooling) or decreases (when heating) temperature until ambient temperature is reached to save energy without forgoing comfort (-HC).
- Adjustable Switching Differential (deadband): Control the heating and cooling system even tighter, by setting the switching differential temperature.
- On/Off memory function: Memorizes the On/Off state before abrupt power failures.
- Anti-Frost Mode: Protects your property against pipe damage caused by freezing ambient temperature (below +5 to +12°C, adjustable; -P only).
- Lock Function: Save energy by allowing access only to those that require it.
